PREFACE TO REPRINT.

THE following work having been for some time out of print, and copies very scarce, it was decided to have it reprinted, the Skeleton referred to being still in a good state of preservation in the Australian Museum. The lithographed plates have been reproduced exactly as in the original edition, but, as unfortunately an error in the delineation of the hands had crept in, additional plates, taken from photographs of specimens now in the Museum, have been added.

E. P. RAMSAY,

Curator.

Australian Museum,

Sydney, December, 1890.
