

LORD HOWE ISLAND

A Summary of Current and Projected Scientific and Environmental
Activities

This publication is, in large part, a summary of a Symposium
held at The Australian Museum 30 Nov.-1 Dec., 1979.

Edited by H.F. Recher and W.F. Ponder
The Australian Museum

Sydney, 1981

ISBN 0 7240 2060 8

<u>CONTENTS</u>	<u>Page</u>
INTRODUCTION	1
A SUMMARY OF DISCUSSION	1
Management and the environment	2
The concept of a Lord Howe Island National Park	3
Future scientific research on Lord Howe Island	4
CONCLUSION	4
ABSTRACTS OF SCIENTIFIC WORK	
A. GEOLOGY	6
Origin and evolution - I. McDougall, B.J.J. Embleton and D.B. Stone	6
Geology - C.V.G. Phipps	6
The caves at North Head - L.S. Hall, H. Shannon and R. Shannon	8
B. INVERTEBRATES	9
Corals and coral communities - J.E.N. Veron and T.J. Done	9
Non-marine annelids - P. Hutchings	9
Marine Mollusca - W.F. Ponder	10
Freshwater snails - W.F. Ponder	11
Land Mollusca - J. Stanistic	12
Punctidae - minute land snails - F.M. Climo	13
Crustacea - J.K. Lowry	13
<u>Amarinus lacustris</u> (Chilton), a freshwater crab - J.S. Lucas	15
Terrestrial isopods - T.J. and S.C. Kingston	15
Spiders - M.R. Gray	16
Insects - C.N. Smithers	17
Patterns of distribution of some Hemiptera - J.W. Evans	21
Acalyprate flies - D.K. McAlpine	21

	<u>Page</u>
B. INVERTEBRATES (Cont.)	
Wasps - G. Holloway	22
Abundance of invertebrates at potential Woodhen release sites - T.J. Kingston	23
C. VERTEBRATES	25
Fish - J.R. Paxton and D.F. Hoese	25
Reptiles - H. Cogger	25
Phylogeny and biogeography of Meiolaniid turtles - E.S. Gaffney	26
Birds - H.F. Recher	29
Fossil, subfossil and early historic birds of Lord Howe and Norfolk Islands - G.F. van Tets, P.V. Rich, P.J. Fullager and P.M. Davidson	29
Studies of the Fleshy-footed Shearwater, <u>Puffinus carneipes</u> - H.J. de S. Disney and P.J. Fullager	31
Studies on the Woodhen, <u>Tricholimnas sylvestris</u> - H.J. de S. Disney and P.J. Fullager	32
D. PLANTS	35
Annotated botanical bibliography - J. Pickard	35
Keys to vegetation - J. Pickard	36
Marine algae - T. Kraft	36
Bryophytes - H.P. Ramsay	37
Handbook of the ferns - J. Pickard	38
Key to the angiosperms - J. Pickard	41
<u>Pandanus</u> - B.C. Stone and J. Pickard	41
Some aspects of the problem of palm seed yields - H. Dowden	41
Catastrophic disturbance on Little Slope - J. Pickard	42
E. CONSERVATION	43
Proposal for marine reserves - D.A. Pollard	43
Conservation of marine environments as affected by development alternatives - S. Rooney	44
Conservation of terrestrial and marine environments as affected by development alternatives - S. Clark	44

E. CONSERVATION (Cont.)	<u>Page</u>
Conserving an endangered species, the Lord Howe Island Woodhen - B. Miller	46
The energy crisis - G.J. Bowden	47
F. GENERAL	51
Biogeography of the non-marine fauna and flora - W.F. Ponder	51
Geographical place names - J. Pickard	52
Cartography - J. Pickard	52
ACKNOWLEDGEMENTS	52
